672 Film

672 is a black and white, ISO 400 speed film which produces fine grain prints with excellent gradation and tonal range. This film is used in proofing, test shots less than 1/10 second or with strobe, and scientific imaging.

Features

- Medium-contrast fine grain film
- Excellent gradation and tonal quality

Works With

Cameras or instruments with CB-103 Back or OEM CB-100 Back (these holders are supplied by medium format camera manufacturers such as Mamiya, Hasselblad, Konica).

[405 3 ¼ x 4 ¼ Pack Film Holder for 4 x 5 Cameras](#)
